

OREAD MOUNTAINEERING CLUB

Meets Circular

June 14th - 16th

Club Hut Meet

E. Wallis

(14 Peaks Walk and Cloggy.)

Despite protestations on my part Hayes still insists that people want to tackle the 14 Peaks Walk, he was even heard to mutter something about it being one of the conditions of entry to the club. This would, of course, seriously affect the club's membership with several of us being forced to ignominiously withdraw.

A compromise was reached however, and the meet billed as a mixed climbing and walking weekend with the climbers active on Cloggy (Eric hopes!), whilst Janes, still recovering from the Welsh Walk, can bathe his blisters in the lake and reminisce over a convivial pint at night.

Transport will be arranged on Tuesday 11th June at the 'Bell'; hut bookings direct to Eric Wallis. People climbing will, it is hoped, provide transport to Aber for the walkers on the Friday night. Accomodation at the hut is restricted to 22, but it is possible to camp in the field opposite.

June 22nd/23rd.

Birchems/Gardoms Edges

E. Byne

The usual campsite at Froggatts Farm will be utilized for this meet, which is another anniversary of Eric's long climbing career on Gritstone. Many of his friends from the local clubs will be there, so the meet should be a very social one, with of course, the chance of some fine climbing.

Forthcoming Meet

Deepdale (Patterdale) A chance to meet Lloyd Caris again who now lives in Carlisle, and climb some of the routes on Helvellyn, described in the Eastern Fell Guidebook. Details later.

Alpine Climbing Group Bulletin (A.C.G.)

Price: 3/6d.

I have a number of copies of these bulletins, anyone interested please contact me direct. The bulletin, a new feature in its present printed form, gives news of latest developments in the Alps; articles on the Eiger (I. Clough) Paine (Whillans) and W. Face Dru, all illustrated, and notes on the principal ascents of the 1962 season. The group is responsible for the publication of the English guide books to the Alps, namely "Selected Climbs in the Range of Mont Blanc" and the "Pennine Alps" and this June is publishing the guide to the "Dolomites". Support for the group therefore, is well worthwhile.
