The first meet will be a gritstone weekend at Lawrencefield on April 18/19th and will be led by Ian Flint (who has not been told yet!) This crag offers climbing on quarried rock and is popular with many in the club. Millstone Edge, over the road, is good for pegging practice, but rumour has it that the new guide book to the crag will list over 100 free routes. It is possible to camp by the pool at Lawrencefield, but it is advisable to take your own drinking water.

April 7th . SCOUT HALL, BORROWASH 7.45 p.m.

The last of this year's indoor meets. Two films will be shown, a ski-ing film "NIEGES" and a film entitled "THE ICE-WATCHERS" concerned with glaciological study around the Matterhorn.
