

Agden Rocher

August 14

Ron Sant

At present I propose to make this the usual post-Alps one day Meet. However, with the reasonably close proximity of Heathy Lea, and a campsite at Bradfield, some may choose to make a weekend of it.

The crag (O.S. 264934) overlooks Agden Reservoir and is close to the village of High Bradfield - the best access being from the road from High Bradfield which passes behind the crag. The crag has a wide variety of middle grade routes and is in a superb setting. This, combined with the limitless walking possibilities - I hope to see a good cross-section of members attending. Should anyone require further information, have a word with me at the Rowing Club or on Melbourne 3579.

Heathy Lea

August 19/21

Ron Chambers

Rumour has it that we are turning into a club of 'Rock Athletes' (wishful thinking), so in an attempt to dispel this myth(?) I am proposing a "mixed" weekend involving a pub, a bivi and a walk on Saturday, followed by some climbing on the local edges on Sunday. The idea is to meet up at Heathy Lea on Friday evening no later than 8 pm where further lifts will be organised to take the 'walkers' (myself included) to a hostelry somewhere in the 'Dark Peak' where a little light 'boozing' will be followed by a night under the stars before embarking on the walk (not sprint!!) back to Heathy Lea. See you Friday evening then! P.S. Don't forget your bivi gear.

St.Davids, Pembroke

August 27 Bank Holiday

Richard Freestone

Situated at the northern end of Pembrokeshire, the St.Davids area offers a relaxed atmosphere. Here, the crags have to be looked for and are to some extent spread out. It is for this reason that it does not attract hordes of 'E' men as does the southern end. This Meet has therefore created over the years a pleasant, quiet holiday attitude where one can catch mackerel in between the coast and Ramsey Island and then grill them on Graham Foster's barbecue for supper after a day's climbing, or walking along the coast path. The campsite overlooks Ramsey Islands and is found by following the St.Justinians road from St.Davids which is also signposted to the Lifeboat station. It is the second campsite on the left opposite Rhosson farm and about 200-300 yards before the Lifeboat Station. There are two tracks into the campsite - take the second.

Harrisons Rocks/Southern Sandstone

September 2/4

Mike Pearce

An exciting new venue for an Oread Meet - Southern Sandstone. Imagine it - perfect rock, fine walking, great pubs, superb weather (it's nearer the Mediteranean!) and no dangerous leading - the boulderer's paradise. You'll need an old rope and lots of long slings to top-rope with. Sounds good? Well, there's better to come! Not only will you be able to drop into the swimming pool at the bottom of Bowles Rocks to cool off, you will also be able to join the Oread 'culture vultures' on a trip to the "Proms" in London. Contact me on Derby 883292 or 365650 (Daytime) - this is especially important if you want to go to the concert as we intend to book seats.

For Sale

1. One pair Galibier Super Pro Size 43 £30, One Snowdon Curver £10, One pair Brixia Ski Boots Size 8 £29 (unused, were £50). Contact Richard Freestone Belper 6104.

For Sale

2. George Reynolds is selling off an assortment of climbing gear for a friend, including E.B.'s, a helmet, harness, etc.. Contact George on Langley Mill 3776.

Membership

Applications for membership have been received from Tim Barnett and John Heald. Would anyone with any comments on the suitability of the applicants please forward them to the Hon.Sec..
